

Maximizing the Return on Your Insurance Investment

ISU Consulting specializes in helping businesses obtain a comprehensive understanding of their risk management programs and implementing mitigation solutions that will maximize the value of their insurance programs.

With access to an extensive database of insurance information from tens of thousands of companies, our knowledgeable consultants provide the expertise required for organizations to obtain the most effective risk management programs that can be seamlessly integrated into their current business strategies.

ISU Insurance Consulting Overview

We dive deep into the data of your business and industry to provide innovative solutions that will maximize the value you receive from your insurance investment.

Our services can be categorized into the following areas:

- Organization Risk Analysis
- Industry Risk Analysis
- Policy Analysis
- Broker Service Analysis
- Real-Time Benchmarking
- Peer Purchasing Pattern Review
- Price Comparison Report
- Litigation Stress Test

The customized recommendations provided by our seasoned advisers can be implemented into your organization to produce the following results:

- Reduction of your policy costs
- Elimination of gaps or overlaps within all of your insurance policies
- Quality service received from your insurance broker
- Comprehensive understanding of your risks

Our Clients

- Financial executives seeking a comprehensive understanding of their company's risk profile to enhance strategic decision making.
- Business owners seeking to maximize the return on their insurance investment.
- Risk managers seeking unbiased data and analysis provided by insurance experts to support their risk mitigation strategies.
